

Lunch and Learn Technical Seminar

Wednesday, May 15, 2019

12:00 (noon) – 2:00 pm

Sala San Marco, 215 Preston Street, Ottawa, Ontario

Building Envelope Systems for Deep Energy Retrofits

Local Energy Efficiency Partnerships (LEEP) is a Natural Resources Canada market transformation initiative that accelerates energy efficient construction by enabling builders and renovators to reduce their time and risk in finding and trying innovations that can help them build and renovate higher performance homes better, faster, and more affordably. This session will:

- Explore the energy performance of typical Canadian homes across Canadian climate zones
- Discuss the barriers and gaps identified by renovators to implementing deep energy retrofits
- Present five manufacturers developed DEEP energy retrofit envelope solutions from the LEEP for Renovators pilot in London Ontario

Presenter:

Patric Langevin, M. Arch

LEEP Facilitator and Technical Lead - LEEP Team, Natural Resources Canada

Patric Langevin, an architect by training, is the facilitator and technical lead for Natural Resources Canada's Local Energy Efficiency Partnerships (LEEP) initiative. Patric has been active in the field of housing and energy efficient design for more than 15 years, and has worked for architectural firms in Calgary, Montreal, and Ottawa. Patric has been at NRCan for 9 years, working with the home building industry through LEEP to find and develop cost effective solutions for energy efficient homes.

Seminar fees		
Premium Corporate	Individual and Corporate Members	Non-Members
Free	\$30.97 + \$4.03 (HST) = \$35.00	\$53.10 + \$6.90 (HST) = \$60.00
